Discussion of 2019 Integrated Resource Plan (IRP) Results (B)

The Integrated Resource Plan is a strategic planning tool used by utilities to study different options to meet the future generation needs of its system. GRU completed an initial Integrated Resource Plan that was finalized in 2019. The methodology, inputs, and results of an IRP are important to building GRU's strategic path to net-zero going forward. Staff will discuss GRU's current IRP and give a brief update on plans for the upcoming IRP.

None

Hear staff presentation on the methodology, scope, and results of the 2019 Integrated Resource Plan, as well as a brief update on planning for the new IRP.
