Water Conservation and Water Shortage Resolution (B)

At its meeting of October 4, 2012, the City Commission directed the City Attorney to draft a resolution for the City to opt into Alachua County's Year-Round Water Conservation Measures and Water Shortage Regulations Ordinance (Alachua County Ordinance No. 2012-08). This Resolution requests that Alachua County amend Ordinance No. 2012-08 to give Alachua County Environmental Protection Department the authority to enforce water conservation measures and water shortage regulations within the City of Gainesville, consistent with Alachua County Environmental Protection Department's enforcement authority.

The City Commission adopt the proposed Resolution.
