### **Resolutions for Local Agency Program Agreements for NW 19<sup>th</sup> Lane Multimodal Facility and SW 27<sup>th</sup> Street Multimodal Facility (B)**

**This item involves Resolutions authorizing the City Manager to execute Local Agency Program (LAP) agreements between the City of Gainesville and the Florida Department of Transportation for design and construction of multimodal facilities along NW 19<sup>th</sup> Lane and along SW 27<sup>th</sup> Street.**

The Florida Department of Transportation (FDOT) notified the City of funding availability in FY2016-2017 for the design of bicycle/pedestrian facilities along:

- NW 19<sup>th</sup> Lane connecting NW 13<sup>th</sup> Street to NW 16<sup>th</sup> Terrace. This is in response to the City's application for funding under the Transportation Alternatives program through the Metropolitan Transportation Planning Organization (MTPO), dated September 2014; and,
- SW 27<sup>th</sup> Street/SW 40<sup>th</sup> Place/SW 25<sup>th</sup> Terrace connecting SW 35<sup>th</sup> Place to Williston Road. This is in response to City application for funding under the Transportation Alternatives program through the Metropolitan Transportation Planning Organization (MTPO), dated March 2013.

The projects are identified as priority projects in the MTPO's List of Priority Projects and Transportation Improvement Plan. Construction of the projects advances the City Commission's Strategic Initiatives 5.1 and 6.5 that seek to expand the multimodal network, and promote an integrated, safe and accessible transportation system.

The City of Gainesville is a FDOT Certified local agency. These resolutions allow the City to enter into agreements with FDOT to presently fund and implement projects and receive reimbursement when FDOT funding is scheduled. The City is requesting to enter into an agreement with FDOT for design and construction of the NW 19<sup>th</sup> Lane project and for the SW 27<sup>th</sup> Street project.

The projects will be funded 100% by FDOT through LAP agreements for design and construction; a total of \$486,570 is included in the FDOT tentative work program FY17/FY20 for NW 19<sup>th</sup> Lane; and a total of \$510,058 is included in the FDOT tentative work program FY17/FY19 for SW 27<sup>th</sup> Street.

The City Commission adopt the Resolutions.

Alternative Recommendation: The City Commission reject the Resolutions, which will result in the City losing the allocated funding for the projects.
