### 2020 Urban Forestry Workshop Planning

The annual Urban Forestry Workshop is typically held as a conference on the first Wednesday of December. With social distancing requirements due to COVID-19, an in-person conference will not likely be feasible; a webinar will be hosted instead. Topics, speakers, and other program details should be delineated in advance with the cooperation of the City Beautification Board.

Discuss the objectives of the workshop, its structure and duration, and begin compiling a list of possible speakers for the event.
