Public Engagement Strategy for Public Input on the UAB's Energy Policy Plan (B)

Following City Commission approval of their work plan in October 2018, the UAB undertook drafting of an energy policy that they proposed to have the City adopt and implement. Following completion of the draft policy and staff review, the commission directed the UAB and staff to obtain public feedback on the policy.

Staff completed an online survey and presented those results to the UAB in June 2021. The UAB voted at their July 8, 2021 meeting to bring the results forward to the City Commission for discussion and further direction.

None at this time.

The UAB and City Commission discuss and the Commission either provide direction for further work on the policy or decide whether to accept and implement the policy as is.
